Emergency Medicine with Clinical Rotation course

Course teacher: dr. sc. Mirko Mihalj, dr.med.

Lecture schedule: Emergency Medicine with Clinical Rotation

#### GENERAL REMARKS ON THE COURSE/ OPĆE NAPOMENE O PREDMETU

Emergency Medicine with Clinical Rotation lasts for three weeks. The course aims to familiarise students with the most common urgent conditions and how to treat them. In most cases, students have already listened to selected topics in other courses, but a more detailed analysis of the most common emergencies will be conducted, which is of great importance for the end of the studies

Svrha predmeta jest upoznati studente s najčešćim hitnim stanjima i načinu njihovog zbrinjavanja. U većini slučajeva studenti su slušali izabrane teme u okviru drugih predmeta, no sada satnica omogućuje puno detaljniju analizu najčešćih hitnih stanja, što za kraj studija ima veliki značaj.
